

PERSONAL CARE

RELEVANT CHARACTERISTICS

The perfect combination of technology, wellness and nature in personal care products.

Natural ingredients that do not harm the environment and keep your body healthy.

Leaders in meeting people's needs so that they are calm and at peace.

We develop innovative products, combining natural active ingredients that provide better results.

Problems addressed:

- Skin care.
- Sun screens.
- Hair care.
- Natural essences.
- Baby and maternity.

We are a small country that contains 5% of the world's biodiversity. This alone allows us to produce exotic creams, lotions and other products for personal care using natural materials found in our flora and fauna such as cocoa, coffee, moringa, sacha inchi, goat's milk, coconut and more.

We are not so small, after all.
