

AGRICULTURAL SUPPLIES

RELEVANT CHARACTERISTICS

We offer products for your crops throughout the production cycle (growth, flowering, production and post-harvest).

We develop innovative solutions for the agricultural sector, adapted to the real needs of the region.

Our extensive offer includes foliar fertilizers, organic fertilizers, pest control and others.

Rigorous quality standards.

Problems solved:

- Prevent, destroy or control pests (insecticides, herbicides, fungicides, biological control).
- Fertilizers (Foliar, Nutrition, growth, crop quality).
- Natural solutions (Bio controllers, organic, pheromones).

Our global commitment to care for the environment drives us to develop high-performance solutions through the responsible use of resources.

We try to ensure that the production of our supplies complies with best practices in terms of quality and sustainability.
